

[illegible]

Figure 1: A schematic diagram of a rectangular domain divided into four quadrants by a horizontal line at  $y=0$  and a vertical line at  $x=0$ . The top-left quadrant ( $x < 0, y > 0$ ) is labeled "POHLED SEVEROZÁPADNÍ" and "NORTH-WEST VIEW". The top-right quadrant ( $x > 0, y > 0$ ) is labeled "ab". The bottom-left quadrant ( $x < 0, y < 0$ ) is labeled "1/201". The bottom-right quadrant ( $x > 0, y < 0$ ) is labeled "1/101". The domain is surrounded by a grid of points labeled with circled numbers 1 through 20. The points are arranged in a 5x5 grid around the central domain, with the domain itself being a 4x4 grid of points.
